

General information

The conference takes place at the Faculty of Mathematics and Computer Science of Adam Mickiewicz University (on the left picture below), ul. Umultowska 87, Poznań.

The easiest way to get to the Faculty of Mathematics is by tram – lines 12, 14, 15, 16, 26, direction *Os. Jana III Sobieskiego*. One should leave at the last stop and either walk a distance of about 1 km (thin black line on the map above, approximately 10 minutes, leaving a tram one should cross a roadway and walk along a transparent acoustic screen; after a 30 meters one will see a railway and a pavement to the conference site) or take a bus – line number 98, direction *Kampus UAM Morasko* (thick black line, approximately 8 minutes, the bus goes every 12 minutes during the peak hours). While walking one will pass near the faculties of Political Science (right hand side) and Biology (left hand side). The Faculty of Mathematics and Computer Science (and conference site) is the next building to the left (refer to the left picture below). While taking a bus one should get out at the last stop *Kampus UAM Morasko* and turn right when leaving the bus. The Faculty of Mathematics and Computer Science is the nearest building (on the right picture below from the perspective of bus leaver).

From the center of the city (*Rondo Kaponiera*) the journey shouldn't take more than 30 minutes.
